Salt Lakes Hit Pendergraft Twenty-Four Times.

SCORE EIGHTEEN TO THREE

Morrow and Hale Make Big Batting Record - Webster's Home Run-Hawley's Great Pitching.

Park Citys in a one-sided game this morning down at the League park, the score being 18 to in seven innings. For all the big score, the game was

characterized by some of the most bril-Hant fielding ever seen in this country, and the Salt Lakes developed a batting streak which remains unequalled in the history of Utah baseball, Pendersraft who pitched for the visitors, was so badly punished that even

tors, was so badly punished that even the most ardent admirers of the home team were sorry for him.

In the first inning the Sait Lakes piled up ten hits, one a three-bagger by Morrow and a two-bagger by McCausland. Every man came to the bat and every man got a hit with the exception of Hawley. Hisley and Barr came up for the second time and each singled. In that inning seven of the white winged doves knocked the dust off every base while the poor visitors from over the mountains got only what the over the mountains got only what the little boy shot at.

who, by the way, is leading the team in batting, made four hits, two of them three basers and one a double. Risley got off with four good ones, Barr secured three, Nels Margetts three and

Webster made two, and in the sixth inning batted one clean and wide over the left fence for a home run, scoring Barr. Such is the story in brief of the work done by the Salt Lakes with the stick, and their fielding work was just as good. They played an errorless game until the fifth when Risley, who was playing short, threw a wide one to.

McCausland on first. McCausland
made one in the seventh which was all.

Now, a word about "Pink" Hawley.

Now, a word about "Pink" Hawley.
Throughout the seven innings his pitching was simply superb. First last and all the time he had perfect control of the ball and had the Parkites at his mercy. Eight times did he cause the boys on the other side to fan the breeze and long for home and mother. In the matter of hits they touched him but once until the fourth when they got three two of them gond for two buses.

Batteries—Tannehili and Zimmer: Hughes and McGuire, Umpires—Nash and Cunningham.

Brilliant Play. three; two of them good for two bases, Altogether he gave only seven and they was he kind and gracious enough to

pass a poor lone man to first.

A funny incident occurred in the sixth with Billy McCausland as the central figure. He was running to second on an error of Short when Seare got the ball and threw it full at the genial Billy. It hit him, too, on the heel, but Billy was game and limped his way to third and finally came home to rest. Following is the score by innings and

Catarrh

The cause exists in the blood, in what causes inflammation of the

mucous membrane. It is therefore impossible to cure the disease by local applications. It is positively dangerous to neg-

lect it, because it always affects the stomach and deranges the general health, and is likely to develop into consumption.

Many have been radically and permanently cured by Hood's Sarsaparilla. It cleanses the blood and has a peculiar alterative and tonic effect. R. Long, California Junction, Iowa. writes: "I had catarrh three years, lost my appealte and could not sleep. My head pained me and I felt bad all over. I took Hood's Sarsaparilla and now have a good appetite sleep well, and have no symptoms of catarrh.

New York, May 30.—Champion James Jeffries has started for San Francisco. Before leaving he outlined his plans as follows:

expect to stay in Chicago day or two and talk with Wm. A. Brady about the conditions of my prospective fight with Gus Ruhlin. If the San Francisco clubs offer enough money I will meet Ruhlin out there. We will probably be able to fight in Connecticut within a few months, and there is more money in the game in the East than on the Pacific coast. I am anxious to meet Ruhlin in the ring. After fighting him I will take on Tom Sharkey. These two men will positively be my last opponents, as I intend to effre from the ring and never return

The Yacht Races.

New York, May 30.—The World says: It is possible that a dead lock exists between Thomas W. Lawson and the challenge committee of the New York Yacht club in the controversy over the former's yacht Independence entering the trial races with Constitution.

The chailenge committee held a meet-ing Tuesday afternoon in the office of Commodore Lewis Cass Ledyard. Af-ter three hours' secret deliberation a reply was framed to Mr. Lawson's last communication to the committee, in which he agreed to charter an interest in his yacht to any member whom the New York Yacht club should designate for the purpose. This reply is believed to have been forwarded to Mr. Lawson on Tuesday Dispatches from Boston last night stated that Mr. Lawson is disgusted with the whole subject. He declared he had not received a reply to his proposition to the challenge com-mittee. He will neither discuss the controversy himself nor allow his secre-tary to give out information. Until he the challenge committee's action nothing will be done toward selecting a charter for his boat.

## ANOTHER VICTORY FOR M'COVERN

San Francisco, May 29 .- Terry Mc-Govern had an easy victory over Aurelia Herrera tonight at Mechanics' pailion. There was never a time at any tage of the game McGovern did not eave the ambitious aspirant for chamnship honors at his mercy, and from a disinterested standpoint it looked very much as if he allowed Herrera to stay four rounds and then put him out

While McGovern rained blows on his man at all times, it was not until the beginning of the fifth that he put his strength and weight behind them. The end came quickly after that, as at the first lead of a right and left on the Herrera went down for the count He came up gamely, only to go down again. The men fought from start to finish, and the decision

went to Dougherty on his cleverness. McFadden did the forcing all through, but was met at every step with stiff left jabs on the face and hard rights on the body. McFadden fought briefly in the last round and sent Dougherty to his knees with a right joit as the gong ended the fight.

# W. H. BARNES WON THE ROAD RACE

Also Captures the Novice Time Prize in the Annual Event.

SAMUELSON BREAKS RECORD

Splendid Performance by the Provo Rider, Who Makes the Distance ta 47 Min. 21 Secs.

W. H. Barnes, first place and novice time prize: time 49:64.

W. E. Samuelson, time prize. Time 47:21, or 1:31 lower than the previous record held for the Farmington course.

It was a great race in every sense of the word. The riding of Samuelson, the Provo lad, was a feature that will go down in local cycling history. The effort of Barnes, too, was one that will place him in the front rank of young riders. Taken all in all it was also a big day for the Twenty-first ward, the first five men to cross the tape all halling from that part of the northeast bench. The race was not without the usual incidents that go to add to the excitement of the occasion. In the first place the train was made up of thirteen cars, and those in the thirteenth were in constant peril from the fact that the roof threatened to cave in with its burden of humanity. Then, too, those responsible at the Farmington end of the course had neglected to rope off the finish and also sprinkle the rope off the finish and also sprinkle the roadway. As a consequence the populace had to kick holes in the dust in order to view the riders, while the riders carried their lives in their hands as they raced for the tape. Spills were accordingly both numerous and excit-ing. After young Woolley had been carried from the scene in an insensible condition from the effects of a high dive into the crowd, and several gen-tlemen had retired with more haste than dignity in order to arrange their attire and hunt an arnica bottle, the

ontookers were not so unruly. The incidents at the close of the run, however, had the effect of somewhat marring an otherwise perfect event.
Despite the stiff headwind that was blowing, seventy-eight of the eighty riders entered showed up at the start-ing point on Fifth North and Third West streets at 10 o'clock this morning. It was an assorted bunch that faced the starter at the call of time. All sorts and conditions of costumes were in evidence, from the opthalmic racing suit down to bathing costumes and a pair of ancient circus tights, spangles and all, wern with conscious pride by George Soffe. The traveling commissariats carried by some of the riders were also things awful to contemplate, ranging as they did from lemons tied to strings down to spangles, feeding bottles and

down to sponges, feeding bottles and babies' comforts.

Punctually at 10:13½ Starter C. H. Dowse flashed his gun and the 6:30 handicap men hit the trail for their seventeen-mile ride. There were nine men in the first bunch, and from that time at half minute intervals the riders pointed northwes) in squads and bat-talions. Then Samuelson started out solus on his long chase and the crowd stampeded for the cars.

The train groaned up the hill and at the cut caught a bunch of riders who

down to sponges, feeding bottles and

were actively engaged in dodging cob-blestones. On reaching Beck's hill it was seen that Samuelson was going great guns and had caught the minute men and was hiking up the rise after the other bunch. He passed them ere the toboggan on the other side had commenced. From then on glimpses of panting, pantless riders were caught through the green foliage as they dodged wagons and took up races with the youth of Davis county astride the family plow horse. Through Bountiful the train went at a three-minute clip to later slow down at the open stretch to wait the riders. They could be seen strung out at intervals across the land-scape as they raced for the hill that later proved to be a veritable bakery. Munson at this period was so taken up with the millinery displayed on board the train that he lifted his hands, presumably to arrange his disordered locks. The next instant Munson plowed the highway with his shoulder for the delectation of an American holiday crowd

At one spot on the road someone had thoughtfully turned an irrigation ditch loose. This obstacle was eventually navigated with but the loss of three men. Then the train put on steam and raced for the tape. The train won and had just time to disgorge the crowd when the form of Barnes come round the bend. One minute later a bunch comprising Walker, Woolley, Mitchell and Taylor came pumping down the home stretch, and after the tape had been passed they mixed up with the crowd in a fashion that put two of the riders out for the time being. Robinson and Young were the next two to fall foul of the crowd and lost three places on this account to say nothing of sev-eral square inches of cuticle. From then on the men came in in bunches at half minute intervals until Samuelson came riding down the road like a whirlwind. It was patent to everyone that he had broken the record, and as he passed the tape twenty-seventh on the list, he received an ovation. After sixty-seven of the riders had reported to headquarters the judges concluded that they would not take the time of

the stragglers.

Among the late arrivals was J. H.

Thompson, who finished sixty-first with

Estimates were being taken today for the erection of the new buildings for the Agricultural college at Logan. The plans, which have been prepared by Architect Mahler, point to the erec-tion of modern buildings consisting of cattle barns, sheep sheds and piggery. The cattle barn is fitted for experimental purposes with all the latest improvements. The stalls are made of gas pipe let into cement. They will have wire partitions and cement floors. Electric lights are also a part of the equipment while the drainage and plumbing will be modern in every par-ticular. The buildings are designed in the Normandy style of barns, and the roofs are to be covered with shingles dipped in creosofe, the preservative qualities of which are well known. The sheep sheds and piggery are likewise as complete and up-to-date as it is possible for them to be. The buildings will cost about \$50,000. The bids will be opened on the 18th of June at the coi-
